FORWARD-LOOKING STATEMENTS: Certain statements in this annual report concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. We have tried wherever possible to identify such statements by using words such as anticipate, estimate, expect, project, intend, plan, believe and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risk, uncertainties and even in accurate assumptions. Should known or unknown risk or uncertainties materialised, or should underline assumption proved inaccurate; our actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a results of new information, future events or otherwise.

SEYA understands the need of eco-friendly environment for our future generation. SEYA has taken a minor step along with its shareholders to contribute its little bit to save environment by giving an opportunity to its shareholders to receive documents and notices in electronic form. We feel proud that like SEYA, its members are also actively participating in this initiative. Those members who have still not register their e-mail Ids are requested to do so by writing to RTA at info@uniseq.in or to the Company at corporate@seya.in. For a healthy and Greener life.....

CHAIRMAN'S STATEMENT

My Dear Valued Stakeholders,

Warm Greetings to All of you!

It gives me immense pleasure to welcome you in our Silver Jubilee Year and share the same sense of excitement, a sense of having achieved a major milestone in our journey towards a great future. Looking back with pride and satisfaction, while there is a feeling of contentment at the performance of the Company, it's thrilling to have geared ourselves visualising the huge potential and challenges the future holds for us.

Your Company is year on year breaking its own records and moving towards success progressively. Just like the Icing on a Cake, we are delighted to share that the BSE Ltd has finally accorded in-principle approval to revoke the suspension of Trading of shares of your Company. This couldn't have been at any other righter time than now, complementing our Silver Jubilee celebrations.

Global Chemical Industry

The \$5 trillion Global Chemicals Industry's recovery remains on track amid a still fragile macro environment. But the Industry is not without its challenges, such as soft agriculture market fundamentals, depressed demand in energy markets, sluggishness in China and headwinds from a stronger dollar, which shall weigh on the performance of Chemical manufacturers during 2015.

Indian Economic Environment

As one of the emerging economies, of Asia, India has long enjoyed rapid growth. The new government leadership under Hon'ble Prime Minister Mr. Narendra Modi has promised a pro-business approach to address the issues relating to business growth. With Hon'ble Prime Minister's **MAKE IN INDIA** campaign

And the winds of change blowing in India's favour I think there's never been a better time for making in India. With Government giving thrust on some of the key business parameters like setting up of Single-Window Clearance System, Reforming labour laws and Easing the Land Acquisition rules, India has the potential to become a Global Chemical manufacturing hub.

Indian Chemical Industry

Union budget 2014-15 initiated various programs and provided financial support for Chemical Sector in the form of various Tax benefit / exemptions to the Manufacturer / Exporters complemented with 100% Foreign Direct (FDI) being allowed in the Chemicals sector. Policies have been initiated to set up integrated PCPIR (Petroleum, Chemicals and Petrochemicals Investment Regions) spread across 250 sq.kms. for manufacturing of domestic and export-related Petroleum, Chemicals and Petrochemicals related products. At the same time, a number of Indian chemical companies are making move to increase their capacities and market share. Together, these developments promise significant changes for the chemical industry serving markets in the world's largest democracy.

On the surface, India has all the requisite ingredients for a Robust, High-growth Chemical Industry – the same ingredients that continue to drive Chemical Industry growth in China, which include a large and growing population, Mass urbanization and a rapidly expanding middle class supporting numerous consumer markets. With the new government comes new hope and the early signs are positive. If the new government can follow through on its commitments to foster a more business-friendly environment, the chemical industry can help serve as the foundation for further development of the country's Industrial manufacturing value chain. Indeed, we may start to see the Indian chemical industry re-establishing its position as an engine of growth for the global chemical industry

Silver Jubilee Performance

FY 2014-15, yet another year of excitement and achievements for SEYA, exhibited exhilarating performance and endorsed its Silver Jubilee Celebrations. Our actions are bearing fruit and I am delighted to announce that in FY 2014-15 Revenue from Operation grew by almost 89% to ₹24,761 Lakhs while EBIDTA margin was 13.80% (₹3,417 Lakhs) underscoring an extra-ordinary growth of 114% (PY ₹1,598 Lakhs). The Profit After Tax(PAT) stood at ₹1,303 Lakhs up by a whopping 288.28% as compared to ₹336 Lakhs in previous year. The loftier numbers also abridged the Net Debt to EBIDTA to 2.61 (PY 3.06).

It feels great to see your offspring grow up, and achieve more than what you ever thought was possible and SEYA is one such offspring, who is making all of us feel proud.

Growth in Fine & Speciality Chemical Sector

Your company continues to focus on consistent, competitive, profitable and responsible growth and as committed last year, your company has successfully commissioned its forward integration products in the Fine and speciality Chemicals segment. This is witnessed by Revenue from the segment contributing to almost 91% of the total revenue and those from the new products comprising 81% of Net Sales.

The Speciality chemical segment having a significant market size and growth in end-user industries has supported demand for high value, Speciality and Pharma chemicals. India's Speciality chemical market currently valued at USD 23 billion and is expected to grow at CAGR of 14% per annum.

Building the Right Organisation

SEYA has a professional management team in place which is well embedded across all functions and levels, and this team will continue to lead and drive SEYA. As we look to expand beyond our horizons, we have created a structure to ensure we have the right balance and focus on delivering day-to-day performance as well as driving the overall strategic agenda for the business. This structure is designed to be flexible as we continue to grow and helps to deliver, capitalise on synergies, and ensure lean and focused governance. Through the last year, we continued to exert ever greater demands on our operational backbone which elicited in securing higher capacity.

Strategies for Growth

Your Company has already initiated work for its upcoming projects integral to our existing business operations by embarking on a backward & forward integration project and capacity expansion of captive products. Once implemented it will further strengthen your Company's sustainability and resilience. SEYA has envisaged its growth path, by a clear and defined vision to:

- Invest locally with Scale and Size matching global norms and adopt cutting edge technology (developed or acquired)
- Secure Feedstock and Technology
- Become a coveted employer - Attract and Retain talent
- Establish a targeted innovation platform, Invest more in R&D
- Create a positive, consumer & environment friendly image

Looking Ahead

Your Company operates in the following segments:

- Fine & Speciality Chemicals
- Pharmaceutical Intermediates
- Organic Chemical Intermediates
- Agrochemical Intermediates and
- In-organic Chemical Intermediates

The demand for Specialty Chemicals industry is driven by a wide range of end use industries. The domestic market for Specialty Chemicals is expected to grow strongly, buoyed also by the increased adoption of Specialty Chemicals and their increased usage in different products categories. Compared to developed markets, current usage of Specialty Chemicals in India is very low. With an increased focus on improving products and usage intensity of Specialty Chemicals, the industry is poised for strong growth in future. The Indian middle-class household is expected to grow five times by 2030, leading to a huge demand for Agrochemicals, Specialty Chemicals in Automotives, Water Treatment and construction, Paints Coating and Construction chemicals, Colorants, Active Pharmaceutical Ingredients (APIs), Personal & Health Care Chemicals and Flavors & Fragrances. Besides, a number of new applications in each of these sectors will also contribute to growth. The huge potential of domestic demand and low per capita consumption in each of its industry segments compared to world average provide a strong potential for overall performance.

Winning Team

I must take this opportunity to congratulate and express my appreciation to the human assets of SEYA. I am proud that they have proved that a plausible impossibility is better than a convincing possibility. Their dreams, their aspirations, and their hard work would have all come to naught if it were not for a set of extraordinary people with equally high aspirations, courage, dreams and perhaps even nobler objective than we had when we founded SEYA.

My dear friends, being shareholders your support gave SEYA Incredible strength which can't be explained in words. Your belief and confidence in the company and its management helped SEYA to achieve what it has achieved today. I would also like to thank our bankers who have continued to repose their faith in the company and we are encouraged by their unstinting support.

My fellow board members, customers, vendors and other stakeholders without their support and encouragement SEYA's growth story is incomplete.

I will complete with words of exhortation by Swami Vivekananda, "Arise, Awake and Stop Not until the Goal is reached". That is the clarion call for Team SEYA, To raise the bar and expand our horizons, to win the goals that we have set for ourselves in terms of Performance, Excellence, Quality and Innovation.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS ENVIRONMENT

Global

The Global economy continued to exude an uneven performance in FY 2014-15 with volatility and uncertainty being defining themes across the international economic landscape. Despite the efforts of various governments and multilateral agencies, most of the major economies were in the middle of a balancing act during the year as they attempted to revive growth in a sustainable manner while simultaneously addressing fiscal concerns. A welcoming relief to oil importing economies especially emerging economies like India was the sharp fall in crude oil prices globally towards the second half of the Financial Year though volatile commodity prices, continued low interest rates and slowing world trade have been pulling these economies in different direction.

Emerging economies disappointed as a result of a less favourable investment climate and weak external demand with number of country specific challenges looming over them like infrastructure bottlenecks, increased financial risks and political tensions, though contributing about two-thirds of global growth. In the Euro area, a massive monetary expansion is being undertaken to reverse the deteriorating economic conditions and deflationary pressures. With lower oil prices, lower interest rates and Euro depreciation, the outlook for growth is moderate, along with subdued inflation. Though the legacies of financial crisis continued to linger over the developed economies of America and Asia as the potential growth rate remained lower than the early 2000s as a result of the aftermath of the financial crisis, these economies gathered positive momentum simultaneously for the first time since 2011 inspite of still being confronted by a number of challenges like high unemployment rates and structural bottlenecks. The United States is on an improving growth trajectory, with lower inflation and declining unemployment, which is expected to more than offset reduced net exports caused by dollar appreciation catalysed by accommodative monetary policy and lower oil prices boosting domestic consumption demand.

China's growth in the Financial Year (FY) 2015-16 will be affected by slower growth of exports and shift in the focus of domestic growth from an investment to a consumption oriented economy. As a result China, which grew at 7.4% in 2014 (its slowest rate in 24 years), has set its GDP growth for 2015 at about 7%. China's slower growth will have repercussions on growth prospects of emerging Asian countries. China's flooding of Asian markets, including that of India with metals (steel), Chemicals and electronic items is an area of concern.

Overall, it is believed that the global economy has bottomed out after the global financial crisis of 2008 and may now consolidate before a sustained recovery takes place. All major advanced economies are expected to show improved growth in 2015 and 2016 though growth in major emerging and developing economies (except India) is projected to be lower, primarily reflecting weaker prospects for some large emerging market economies and oil-exporting countries. However, there is a view that many of these emerging economies including India have put the worst behind them.

Domestic

India witnessed the largest single party political mandate at the Centre since 1984 in FY 2014-15 auguring a stable government with opportunity to return the economy to its strong growth

trajectory of the previous decade with a new perspective, renewed vigour and expectations of a new pace of rolling out of reforms and strong policies. The Indian economy grew by 7.3% in FY 2014-15 led by strong growth in the industrial and service sectors, despite slowdown in the agricultural sector due to poor monsoons, and is expected to further improve to 7.4% in FY 2015-16 and 7.5% in FY 2016-17 surpassing China, making India the fastest growing major economy in the world by 2016.

The Government through policy reforms is not only aiming for short term objectives like control over inflation and external sector imbalances but is also focussing on medium to long term objectives for transformation and development by stimulating civil and social infrastructure projects across the Country. Measures for de-bottlenecking the economy are being carried out like land acquisition for development, ensuring availability of energy along with the rationalization of fuel prices and ending subsidy in the case of fuel with majority of measures already been executed, indicating the seriousness of the Government about the long-term economic goals of the Country. The 'Make in India' initiative of the Government to revive manufacturing in India with an object to lift the economy through job creation and skill enhancement by localisation of manufacturing across 25 identified key sectors complemented with removal and relaxation of foreign equity caps in various sectors and liberalisation of foreign direct investment in railways, insurance and defence, will give a major boost in this direction.

The road ahead for India is encouraging with refreshing changes in foreign policy, tax certainty, efforts to attract FDI and in the auction of natural resources. The Government has taken necessary steps to revive growth resulting in reduction in the Current Account Deficit(CAD) and pick-up in net exports with lower net outflows under primary income supported by lower oil prices reducing the Import bill.

The Union Budget FY 2015-16 has focused on increasing expenditure towards capital formation, which would have a multiplier effect on the economy. It has recognised the need to revive growth in infrastructure sectors and manufacturing in line with the 'Make in India' initiative. The increase in public investment would encourage private sector investment. Recognising that agricultural incomes are under stress, the Finance Minister has taken measures to increase agricultural productivity through higher investment in rural infrastructure, thus ensuring that rural people get employment, which will help fuel demand to that extent. Micro-irrigation, watershed programmes and the Pradhan Mantri Gram Sinchai Yojana (PMGSY), which aims to ensure irrigation for every field and improve water usage efficiency to provide "more crops per drop", will lead to a higher demand for fertilisers and pesticides.

CHEMICAL INDUSTRY OVERVIEW, STRUCTURE AND RECENT DEVELOPMENTS

Chemical industry is a knowledge as well as capital intensive industry. It plays a significant role in the global economic and social development. It is also a human resource intensive industry and hence employs a large number of people. Globally, more than 20 million people are expected to be employed in this industry. The diversification within the chemical industry is large and covers more than eighty thousand commercial products. With a large talent pool available, the focus has also been towards investments in R&D. India's competence in this

knowledge intensive industry is increasing; however the tapped potential is very limited. The current low per capita consumption suggests that the demand potential is also yet to be realized. Moreover India has a very strong outlook for the key end user industries hence, going ahead the demand of chemical products is expected to surge. The Chemical Industry is divided in the following segments:

The chemical industry is dependent on the progress of its key customers, i.e. the manufacturing sector for growth. FY 2014-15 was a soft year for chemical companies as the global manufacturing sector was affected by slowdown in China and other emerging economies. Recovery in the United States along with growing demand for higher value and innovative products were the key driving factors for growth in FY 2014-15. As we move into FY 2015-16, there are indications of an upturn in the global industrial cycle with the United States continuing to witness growth momentum. In fact, due to the competitive advantage of shell gas extraction, North America will continue to witness sustained growth. However, the most promising prospects were found in emerging economies of Asia, Africa and Middle East. Sustained recovery in the manufacturing sector and shift in competitiveness will result in driving the global economic growth. As a result, the size of the global chemical industry will become \$4.7 trillion by 2018 and \$5.8 trillion by 2021.

Despite the slowdown in export markets and lacklustre growth in domestic markets, the Indian chemical industry expanded and constituted about 3.5% of the global chemical industry. The chemical industry contributed about 19% of the manufacturing sectors' GDP and about 11% of total exports. Of the total size of the chemical industry, bulk chemicals form about 39% of the market share while agro chemicals is about 20% and specialty chemicals is at about 19% of the market share. The balance 21% is held by Pharmaceuticals and Biotechnology.

Bulk chemicals which comprise of organic and inorganic chemicals are projected to grow by 7.3% CAGR over the next five years taking it to \$25.7 billion by 2018. Organic chemicals, which form 34% of the bulk chemicals market are expected to grow at 9%, driven by strong demand in the end-user market. As a result, plants manufacturing organic chemicals are expected to achieve full capacity utilisation by 2018. Inorganic chemicals are expected

to grow by about 6-7% CAGR over the next five years driven by strong demand from the end user industries like alumina, textiles, paper and detergents. Utilization rate will touch 92% by 2018.

Specialty Chemicals

Specialty chemicals are defined as a "group of relatively high value, low volume chemicals known for their end use applications and/or performance enhancing properties." In contrast to base or commodity chemicals, specialty chemicals are recognized for 'what they do' and not 'what they are'. Specialty chemicals provide the required 'solution' to meet the customer application needs. It is a highly knowledge driven industry. The key specialty segments in India are:

The Indian Specialty chemicals are the fastest growing segment with strong demand from end user industries and have gathered enough momentum with expectation to do about \$42 billion by 2018 owing to strong domestic demand. Exports are estimated to drive specialty chemicals growth owing to its competitive scale and low cost of production compared to other economies. The past growth has been due to growth in end user industries, which has resulted in increased consumption for specialty chemicals and is expected to grow around 2 times the GDP in coming years.

India exports specialty chemicals to nearby Asia-Pacific countries which do not have competitive scale of production and to developed countries of Europe and USA where it leverages its low cost of production and quality talent pool complemented with compliance to global regulations.

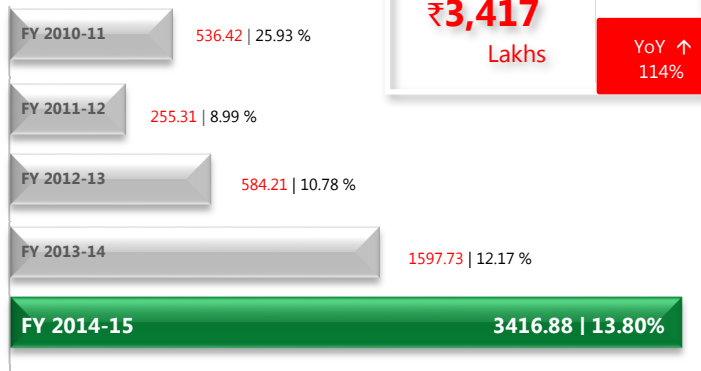

Looking forward, the Indian chemical industry is expected to deliver healthy gain from strong production volumes that will be consumed domestically as well as exported. India is also at the starting point of a new capital spending cycle as the 'Make in India' initiative kicks off which will not only expand production but also generate significant employment once the projects go online. The Indian chemical sector has the potential to become a global manufacturing hub similar to the Indian pharmaceutical industry. As the global economy recovers and external demand becomes more robust, chemical exports will further accelerate.

FINANCIAL PERFORMANCE

The Company's continued focus in expanding business in newer horizon's resulted significant growth in operations during the year. The Company has added another year of achievements in its success book. During the year, business delivered a record revenue performance near to **₹25,000 lakhs** marks for the first time.

Revenues

Net Sales during the year was ₹24,761.11 lakhs compared to ₹13,131 Lakhs in PY, reporting an increase by 89%. Your Company launched 5 new products and almost 91% Revenue was generated from Fine & Speciality Chemical Intermediates, followed Organic Chemical Intermediates contributing 6% & the Pharmaceuticals and Agrochemicals/Inorganic Chemicals finishing the top-line at 3% & 1% respectively. The new products launched continued to deliver double digit growth. Q3 witnessed marginally lower revenues due to sharp decline in International Crude Oil prices resulting in disruption of volume off-take by some customers, however the same was set-off as Global prices of crude oil stabilised at albeit lower levels

Segment Revenue

For better understanding of Company's business, your Company has classified its business segments based on the respective end use of its products which does not have any financial impact, viz.

Fine & Speciality Chemicals

Revenues from this segment were ₹22,559.84 Lakhs in FY 2014-15, compared to ₹9,394.40 Lakhs in FY 2012-13, contributing 91% to total revenue during the year and demonstrating highest momentum in performance as several end-user segments continued to benefit from increased demand thereby professing bright future prospectus for this segment.

Organic Intermediates

Revenues from this segment end-user were at ₹1,499.98 Lakhs for the year(PY ₹2,632.32 Lakhs) thereby contributing 6% to total revenue during the current year. The lower revenues are due to conscious decision taken by your Company to leverage higher operating capacities for Fine & Speciality Chemicals segment however consolidation in prices of some key raw materials, improved realisations.

Pharmaceuticals Intermediates

Revenues from this segment end-users stood at ₹658.57 Lakhs compared to ₹744.60 Lakhs in PY contributing 3% to total revenue.

Inorganic Intermediates

Revenues from this segment end-user stood at ₹34.23 Lakhs for FY15 compared to ₹45.27 Lakhs in PY. The lower revenues from this segment were due to fall in the prices due to over-supply in the market, however the revenue contributed to only 0.14% in the Topline

Agrochemical Intermediates

Revenues from this segment end-users were low at ₹8.49 Lakhs in FY15 compared to ₹ 267.30 Lakhs in PY witnessing further shrink in revenues due to conscious view of limiting credit exposure to this segment end-user, taken by your Company since it warrants high credit cycle leading to higher working capital and related costs.

Your Company demonstrated its versatility, adaptability and dynamism by focusing on Fine & Specialty Chemical segment end-users with higher profitability, higher volumes, stable and increasing demand thereby remarkably increasing the Top line and Bottom line growth of your Company

STRATEGIES FOR GROWTH

Your Company has already initiated work for its upcoming projects integral to our existing business operations by embarking on a backward & forward integration project and capacity expansion of captive products. Once implemented, it will further strengthen your Company's sustainability and resilience. SEYA has envisaged its growth path, by a clear and defined vision to:

- Invest locally with Scale and Size matching global norms and adopt cutting edge technology (developed or acquired)
- Secure Feedstock and Technology
- Become a coveted employer - Attract and Retain talent
- Establish a targeted innovation platform, Invest more in R&D
- Create a positive, consumer & environment friendly image

Your Company is addressing cost issues of raw materials and its price volatility and high energy costs which shall result in reduction in energy and fixed costs, yield better cash flows and aid in debt reduction, all of which will result in long-term value creation for its stakeholders. Cash generation through operational excellence and to realize the synergies of being a fully integrated facility shall drive efficiencies and effectiveness in transitioning to value-added products.

Your Company has adopted the multi-quadrant model for market penetration of its Products

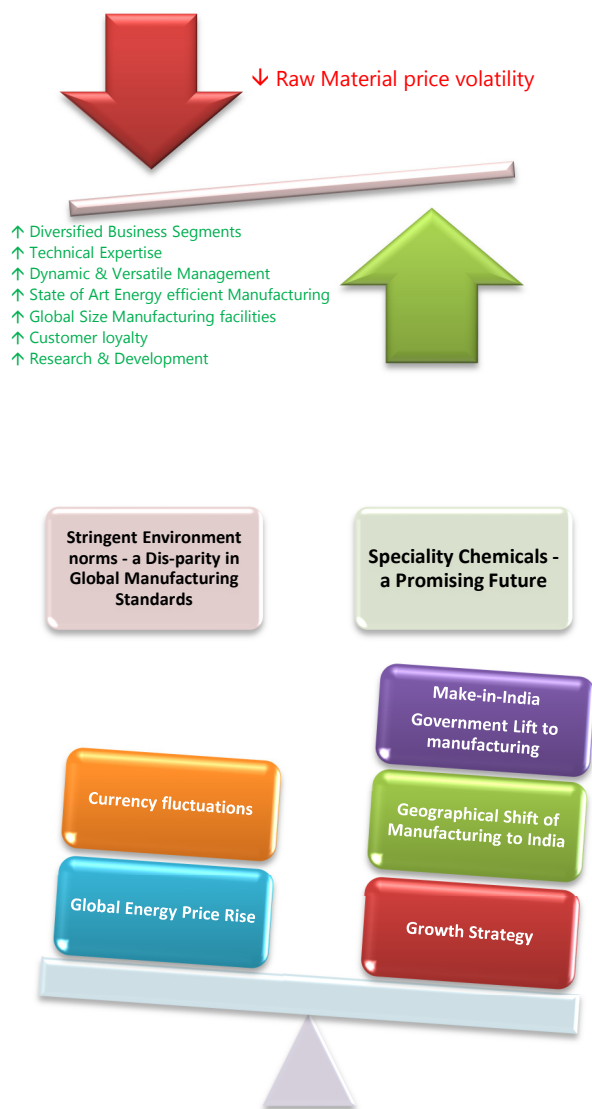

Your Company aims to further strengthen consumer connect and trust through its initiatives in digital and social media

SWOT ANALYSIS

The Chemical industry is critical for the economic development of any country, providing products and enabling technical solutions in virtually all sectors of the economy. Specialty chemicals, which is a focus area of your company, provide the 'solution' to meet the customer application needs and is a highly knowledge driven industry with raw materials cost much lower than for commodity chemicals. Industries are cautiously optimistic about future growth prospects and working towards new products, innovative services, application developments, facilities expansion and most importantly, understanding the changing customer preferences and demands and fostering long term profitable relationship with customers. Going forward, innovation and sustainability initiatives

are expected to be major factors for competitiveness while Development of processes/ products which eliminate or reduce the use of hazardous substances could become the key priority of producers. Consumers would be expected to pay premium for green chemistry and environmental preservation initiatives since stringent regulatory norms could further push the need to innovate cost effective industrial green chemicals.

Your Company has re-assessed its SWOT for clutching the Opportunities and extenuating the Threats:

INTERNAL CONTROL SYSTEMS & ITS ADEQUACY

The Company has robust systems for internal audit, risk assessment and mitigation and well-established internal control and risk management processes both at the business and operational levels. The Internal Auditor reports directly to the Chairman of the Audit & Risk Management Committee of the Board of Directors, which ensures process independence. Internal audit function plays a key role in providing to both the operating management and to the Audit & Risk management Committee of the Board, an objective is to view and reassurance of the overall control systems and effectiveness of the risk management processes across the Company. Internal Audit also assesses opportunities for improvement in business processes, systems

and controls and provides recommendations designed to add value to the operations.

The scope and authority of the Internal Audit Department is derived from the Audit Charter approved by the Audit Committee. Internal Audits with respect to financial and compliance matters are performed by an internal Auditor and operational level internal audit is performed by the in house team of managers, engineers and project and production team. The internal audit department which operates on a decentralised basis continuously monitors the adequacy and effectiveness of the internal control environment across the Company and the status of compliance with operating systems, internal policies and regulatory requirements.

The Audit & Risk Management Committee meets on a quarterly basis to review and discuss the reports submitted by the Internal Auditor and also review closure of all agreed actions. The Audit & Risk Management Committee also meets the Statutory Auditors separately to ascertain their views on the adequacy and efficiency of the internal control systems.

RISK MANAGEMENT

Managing Risk is an integral part of Seya's business. The Company operates a structured and continuous process of identifying, analysing, responding and mitigating the risk events that have the potential to generate adverse effect on the achievements of organisational objectives. This section discusses various dimensions of our enterprise risk management and is not exhaustive and is for information purpose only. Our business model is subject to uncertainties that could cause actual results to differ materially from those reflected in the forward looking statements.

The overall approach to Risk Management at Seya is based on the following principles:

- Aims at value creation and protection
- An integral part of processes and decision making
- Addresses uncertainties explicitly
- Is structured, dynamic and responsive to change

Risk Categories & Mitigants

The following broad categories of risks have been considered in the risk management framework:

➤ Strategic Risk

It includes the range of external events and trends (like government policies that can adversely impact the Company's strategic growth trajectory and destroy stakeholder value.

Mitigant

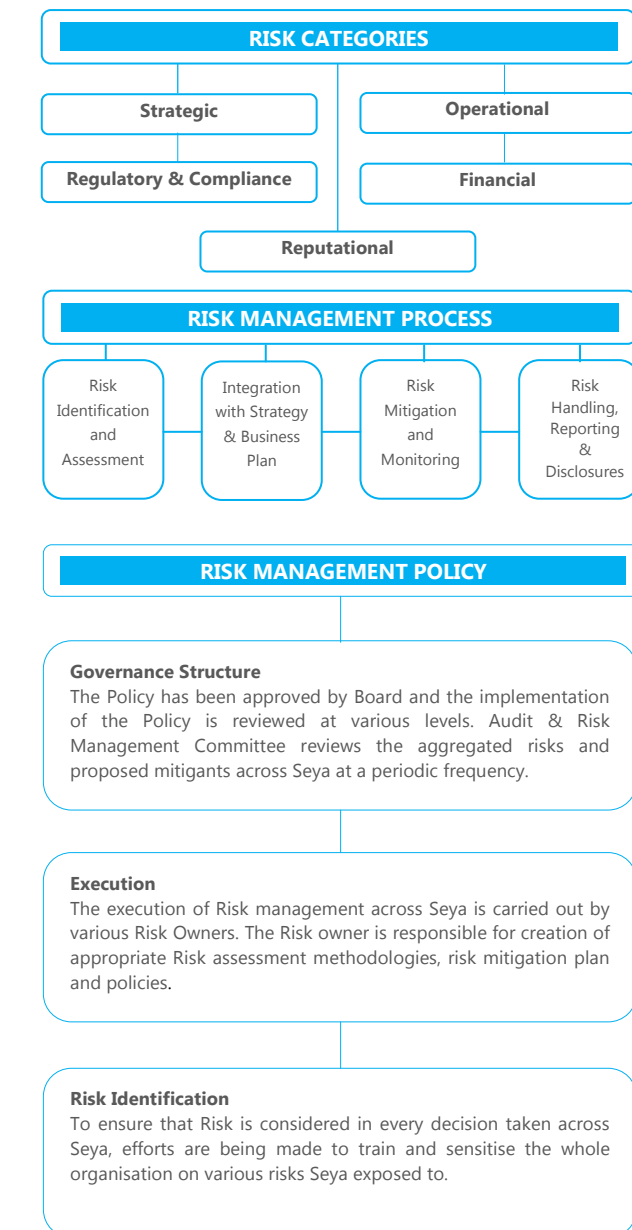

The applicable regulatory framework is continuously tracked by various teams within Seya. Appropriate action as necessary is being undertaken to ensure compliance with all regulatory requirements.

➤ Operational Risk

These are those risks which are associated with operational uncertainties like failure in critical equipment, attrition etc.

Mitigant

Hazop Study and Safety studies for Process risks are carried out at regular intervals through EHS initiatives and dedicated committee formed for Managing process related hazards and safety

➤ Financial Risk

This covers financial risk facing the organisation in terms of internal systems, planning funding etc.

Mitigant

Apart from detailed review across levels and functions an independent risk team evaluates all deals before the approval.

➤ Reputational Risk

Seya is expected to maintain global quality standards in manufacturing. Any deviation with regards to quality compliance of products would impact the Consumers and hence adversely affect the Company's performance.

Mitigant

Dedicated quality control and assurance team actively monitors the adherence to prescribed quality standards. Most stringent Quality Control and Quality Management systems are in place and reviewed periodically.

HUMAN RESOURCES

Seya's talent base, as on March 31, 2015 stands at 136.

With a view to equip the Company to address the business challenges of a dynamic economic environment, the HR function focused on retaining and attracting suitable talent, enhancing the technical / behavioral skills of employees and optimising employee costs. Learning and Development has been prioritized as a means of expanding the knowledge base of employees, which is seen as a key driver of growth. Taken together, these initiatives and processes are making a positive impact on talent attraction, retention and commitment.

Managing the human asset for an Organization is a strategy that helps build the resources for a robust future. A ready second line of leadership; a highly engaged workforce; low manpower turnovers are few of the multiple gambits handled by the Human Resources Team. We hire high-calibre professionals to augment the current team to lead teams into the future, by building the base cadres, as well as, through induction of experienced professionals into senior leadership positions. Leadership development is considered as an essential requirement to Talent Management. The important aspect of building leadership is through alignment with the strategic learning and development agenda. Keeping the above in mind, there is an increasing focus on Strategic Leadership Planning to create a leadership and talent pipeline for the next 3 years for future readiness. We therefore focus on identifying the strengths of individuals and leverage them by providing relevant trainings and a successful career path. The strategy of leadership development has ensured that each of our businesses is managed by a team of competent, passionate and inspiring leaders.

A productive and innovative workplace has been and will continue to remain a key requirement for successful business performance in the Company's perspective. Therefore, there is huge emphasis on Senior Leadership commitment for Human Resource Development practices that seek and nurture employee participation and involvement in managing the shop floor by strengthening the employee engagement initiatives. Innovation is at the core of our business and at the very heart of everything that we do, be it in research, operations and this is true for HR as well. It is in the DNA of SEYA where employees are empowered with the ability to bring new ideas to the table. The Company believes in the conduct of affairs of the Company in a fair and transparent manner by adopting the highest standards of professionalism, honesty, integrity and ethical behaviour. With this aim, the Company has introduced the "Whistle Blower Policy/Vigil Mechanism" for Directors and Associates to report genuine concerns or grievances of unethical behaviour, actual or suspected fraud or violation of the Company's Code of Conduct or Ethics Policy. The main objective of the policy is to build and strengthen a culture of transparency and trust within the organisation. As per the requirement of The Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 ('Act'), the Company has constituted Internal Complaints Committees (ICC) across all the locations which are responsible for redressal of complaints related to sexual harassment at respective locations. The objective of the Policy is to create and provide a work environment that is safer, civilized, free from any sort of hostility, supportive to the diversity & dignity of all Associates, where Associates feel secure at the workplace on the basis of natural justice and confidentiality.

COMPANY OUTLOOK

Your Company operates in the following segments:

- Fine & Speciality Chemicals
- Pharmaceutical Intermediates
- Organic Chemical Intermediates
- Agrochemical Intermediates and
- In-organic Chemical Intermediates

The demand for Specialty Chemicals industry is driven by a wide range of end use industries and the domestic market for Specialty Chemicals is expected to grow strongly, buoyed by the increased adoption of Specialty Chemicals and their increased usage in different products categories which results in almost ~2X GDP growth rate. Compared to developed markets, current usage of Specialty Chemicals in India is very low. With an increased focus on improving products and usage intensity of Specialty Chemicals, the industry is poised for strong growth in future. The Indian middle-class household is expected to grow five times by 2030, leading to a huge demand for Agrochemicals, Specialty Chemicals in Automotives, Water Treatment and construction, Paints Coating and Construction chemicals, Colorants, Active Pharmaceutical Ingredients (APIs), Personal & Health Care Chemicals and Flavors & Fragrances. The huge potential of domestic demand and low per capita consumption in each of its industry segments compared to world average provide a strong potential for overall performance. Accelerated trends of urbanization, infrastructure development, increasing economic wealth, technology enhancement etc. will lead to rise in demand for high performance products/ processes

The Company's long term outlook continues to be promising given the:

- Overall growth in the chemical Intermediate industry
- Continued focus on R&D in regards to improve quality of the Products and increase in production
- Company's reach in regulated market and continued efforts to enhance its presence in emerging markets.

To meet the increasing demand either the local production will have to ramp up or it will be met by imports. In the past decade, India didn't tap its manufacturing potential to the fullest which led to a surge in the chemical imports. Net imports have grown at ~20% between FY09 and FY13 where in the same period the domestic output has grown by ~4%. However, going forward, 'Made in India' could become the next big manufacturing growth story. The Government has set an ambitious plan of increasing the share of manufacturing in GDP from 16% to 25% by 2022.

The recently introduced forward integrated products in the Fine and Speciality chemicals are expected to report good volumes. Increasing utilisation of these newly launched products will further propel volume growth and profitability. Going forward, your Company foresees stronger customer relations, higher efficiencies and robust growth in Fine & Speciality Chemicals end-user segment.

Financial year 2014-15 has been a successful year for the Company. In the very first succeeding financial year of commissioning of its forward integrated products, the performance of the Company has increased considerably. Future of Fine and Specialty chemicals segment on domestic as well as International level is very bright.

Specialty chemical industry is a knowledge driven industry. In India it has been growing rapidly at 1.2-1.3x of GDP growth rate. Domestic demand of specialty chemicals is expected to follow an accelerated growth path. This demand is mostly driven by the strong growth outlook for end use industries. This along with increased adoption of specialty chemicals and newer usages can propel the growth further.

Looking at the present scenario and future outlook of Fine and Specialty Chemicals Industry, your director sees ample of opportunities, also it has started exploiting the said opportunities which is evident from the contribution of 91% of the said segment to the total revenue of the Company.

Acknowledgement

Your Directors wish to express their gratitude and appreciation to all of the Company's employees at all its locations who through their competence, tremendous personal efforts as well as their collective dedication have contributed to the Company's performance.

It is our strong belief that caring for our Business constituents has ensured our success in the past and will do so in future. Your Directors acknowledge with sincere gratitude the co-operation and assistance extended by the Banks, Suppliers, Vendors, Customers and all the Central and State Government authorities and all other Business associates.

The Board also takes this opportunity to express its deep gratitude for the continued co-operation and support received from its valued shareholders.

With your support and encouragement your Directors are confident that this journey of our success shall continue till infinity.

For & on behalf of the Board of Directors

ANNEXURE – I

Criteria for determining Qualifications, Positive attributes and Independence of Directors and Nomination, Remuneration and Evaluation Policy for Directors, Key Managerial Personnel and Others

Criteria for determining qualifications, positive attributes and independence of Directors

The Nomination and Remuneration Committee (NRC) has formulated the criteria for determining qualifications, positive attributes and independence of Directors in terms of provisions of Section 178(3) of the Act and Clause 49 of the Listing Agreement.

Independence: A Director will be considered as an 'Independent Director' if he / she meet with the criteria for 'Independent Director' as laid down in the Act and Clause 49 of the Listing Agreement.

Qualifications: A transparent Board nomination process is in place that encourages diversity of thought, experience, knowledge, perspective, age and gender. It is also ensured that the Board has an appropriate blend of functional and industry expertise. While recommending the appointment of a Director, the NRC considers the manner in which the function and domain expertise of the individual will contribute to the overall skill-domain mix of the Board.

Positive Attributes: In addition to the duties as prescribed under the Act, the Directors on the Board of the Company are also expected to demonstrate high standards of ethical behavior, strong interpersonal and communication skills and soundness of judgment. Independent Directors are also expected to abide by the 'Code for Independent Directors' as outlined in Schedule IV to the Act.

INDEPENDENT AUDITOR'S REPORT

To the Members of Seya Industries Ltd

Report on the Financial Statements

We have audited the accompanying Financial Statements of **SEYA INDUSTRIES LTD** ('The Company') which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ('the Act') with respect to preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flow of the Company in accordance with the Accounting Standard generally accepted in India, including the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities; section and application of appropriate accounting policies; making judgements, and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of Section 143 of the Act. Those standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments the auditor considers internal financial controls relevant to the Company's preparation of the financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system cover financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the

information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2015 ("the Order") issued by the Central Government, in exercise of power conferred by sub-section 11 of Section 143 of the Act, we enclose in Annexure a statement on the matters specified in paragraph 3 and 4 of the Order.
2. As required by sub-section 3 of Section 143 of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, Statement of Profit & Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014
 - e. On the basis of written representations received from the directors as on March 31, 2015 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2015 from being appointed as a director in terms of sub-section 2 of Section 164 of the Act.
 - f. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigation which would impact its financial position

NOTES TO THE FINANCIAL STATEMENTS

For the year ended March 31, 2015

1. CORPORATE INFORMATION:

Seya Industries Ltd (the Company) is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on BSE Limited, Kolkata Stock Exchange, and Ahmedabad Stock Exchange. The Company is engaged in manufacturing of Fine & Speciality chemicals Intermediates, Pharmaceutical Intermediates, Agrochemical Intermediates, Organic Chemical Intermediates and Inorganic Chemical Intermediates.

2. SIGNIFICANT ACCOUNTING POLICIES:

2.1. Basis for Preparation of Financial Statements:

2.1.1. These financial statements have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other generally accepted accounting principles in India (Indian GAAP), to the extent applicable..

2.1.2. The financial statements have been prepared on accrual basis under the historical cost convention except for those with significant uncertainties. The accounting policies adopted in the preparation of financial statements are consistent with those of the previous year.

2.1.3. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the revised Schedule III to the Act. Based on the nature of business and its activities, the Company has ascertained its operating cycle as twelve months for the purpose of Current & Non-Current classification of Assets & Liabilities.

2.2. Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

2.3. Inventories:

- i. Raw materials, Stores & Spares are valued at lower of Cost or Market Value whichever is less.
- ii. Work in process and Manufactured Goods, are valued at lower of Cost or Market Value whichever is less.
- iii. By-products, self-generated Scrap and non-reusable waste are valued at net realisable value.
- iv. Cost includes all charges in bringing the goods to the point of sale, including Octroi and other levies, transit insurance and receiving charges. Work-in-progress and Manufactured goods include appropriate proportion of overheads and, where applicable, excise duty.

2.4. Cash and Cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5. Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6. Fixed Assets (Tangible) and Depreciation:

Fixed assets are stated at their original cost, less accumulated depreciation / amortization and impairment losses, if any. The Original Cost of fixed assets includes its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the assets ready for its intended use, interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses related to acquisition, installation and other pre-operative expenses incurred up to that date which generally coincides with the commissioning date of such assets.

Exchange differences arising on restatement / settlement of long-term foreign currency borrowings relating to acquisition of depreciable fixed assets are adjusted to the cost of the respective assets and depreciated over the remaining useful life of such assets.

Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalised and depreciated over the useful life of the principal item of the relevant assets subsequent expenditure, if any, on fixed assets after its purchase / completion is capitalized only if such expenditure results in an increase in future benefits from such assets beyond its previously assessed standard of performance.

Fixed assets acquired and put to use for project purpose are capitalised and depreciation thereon is included in the project cost till commissioning of the project.

Capital Work in Progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

Depreciation has been provided as per Section 123 of the 2013 Act on a straight line method basis ("SLM") over the estimated useful lives. Management believes based on a technical evaluation that the revised useful lives of the assets reflect the periods over which these assets are expected to be used, which are as follows:

Asset	Useful life based on SLM adopted
Leasehold Land	99 years
Building	1 – 25 years
Plant and Machinery	3 – 20 years
Furniture & Fixtures	3 – 12 years
Vehicles	3 – 10 years

2.7. Leases:

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis.

2.8. Revenue Recognition:

Sales of Goods: Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include excise duty but exclude central sales tax and value added tax.

Other Income:

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

2.9. Foreign Currency Transactions:

Initial Recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the Balance Sheet date

Foreign currency monetary items of the Company outstanding at the Balance Sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Treatment of exchange differences

Exchange differences arising on settlement / restatement of short term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

Exchange differences arising on settlement / restatement of Long term foreign currency monetary are capitalised as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets or amortised on settlement / over the maturity period of such items

2.10. Employee benefits:

Employee benefits include gratuity fund, compensated absences, long service awards.

Defined benefit plans

For defined benefit plans in the form of gratuity fund the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced

by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Short-term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- I. in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- II. in case of non-accumulating compensated absences, when the absences occur.

Long-term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

2.11. Finance Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the statement of Profit and Loss. Borrowing costs include interest; amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan.

2.12. Segment Reporting:

The Company has disclosed business segment as primary segment. The Company operates in five segments: Fine & Specialty Chemicals Intermediates, Organic Chemical Intermediates, Inorganic Chemical Intermediates and Agrochemical Intermediates, and Pharmaceutical Intermediates.

The Company has classified its business segments based on the respective end use of its products which does not have any financial impact and for which necessary Segment wise statement has been shown as per Accounting Standard - 17 (AS - 17)

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

Secondary segment have been identified with reference to geographical location of external customers. Composition of secondary segment is as follows

- i. India
- ii. Outside India

2.13. Earnings per share

Basic earnings per share are computed by dividing the net profit for the year by the weighted average number of Ordinary equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year by the weighted average number of Ordinary equity shares outstanding during the year plus the weighted average no of Ordinary equity shares that would be issued on conversion of all the dilutive potential ordinary equity shares in Ordinary equity shares.

2.14. Taxes on Income

Tax on income for the current period is determined on the basis of taxable income after considering the various deductions available under the Income Tax Act, 1961. Income Tax comprises both current and deferred tax.

Provision for Current tax is measured at the amount computed under the Income Tax Act, 1961, or Book Profit computed under section 115JB, whichever is higher, and correspondingly set-off available under section 115JAA is credited to the Statement of Profit & Loss of the financial year.

MAT credit is recognised as an asset only when, and to the extent, there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent that there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisation. Current and deferred tax relating to items directly recognised in equity are recognised in equity and not in the Statement of Profit and Loss

2.15. Research and Development Expenses

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Expenditure pertaining to Development of products is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Tangible Fixed Assets and Intangible Assets.

2.16. Impairment of Assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of re-valued assets.

2.17. Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

2.18. Service tax input credit

Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is no uncertainty in availing / utilising the credits.

28.9. Disclosure under AS-15: Employee Benefits**28.9.1. Defined Benefit Plan**

During the Period under review Company has made contribution towards Employees' Group Gratuity-cum-Life Assurance Scheme of the Life Insurance Corporation of India.

Both are funded defined benefit plans for qualifying employees. The Scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment as per the Company's Gratuity Scheme. Vesting occurs upon completion of Five years of services.

The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for Compensated Absences is recognised in the same manner as gratuity.

28.9.2. The discount rate is based on the prevailing market yields of Government of India securities as at the Balance Sheet date for the estimated term of the obligations.

- 28.9.3.** The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, Increments and other relevant factors.
- 28.9.4.** The expected return on plan assets is determined considering several applicable factors mainly the composition of plan assets held, assessed risk of assets management and historical result of the return on plan asset.
- 28.9.5.** In absence of specific details of plan assets from LIC, the details of plan assets have not been furnished. The details of experience adjustment relating to Plan assets are not readily available in valuation report and hence are not furnished.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013

(Following Explanatory Statement sets out all material facts relating to the Special Business mentioned in the accompanying Notice)

Item No. 4

In accordance with the provisions of Section 149 read with Schedule IV to the Act, appointment of an Independent Director requires approval of members. Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors has proposed that Ms. Kalpana Nasikrao Tirpude be appointed as an Independent Director of the Company.

Ms. Kalpana Tirpude was appointed as an additional Director of the Company on April 23, 2015 and in terms of the provisions of Section 161(1) of the Act, Ms. Tirpude would hold office up to the date of this Annual General Meeting.

The Company has received a notice in writing from a Member along with the required deposit of requisite Amount under Section 160 of the Act proposing the candidature of Ms. Tirpude for the Office of the Director of the Company.

Ms. Tirpude is not disqualified from being appointed as a Director in terms of Section 164 of the Act and has given her consent to act as a Director.

The Company has received a declaration from her that she meets with criteria of independence as prescribed both under sub-section (6) of Section 149 of the Act and under Clause 49 of the Listing Agreement. In the opinion of the Board Ms. Kalpana Tirpude fulfils the conditions for her appointment as an Independent Director as specified in the Act and the Listing Agreement. Ms. Tirpude is independent of the management and possesses appropriate skills, experience and knowledge.

Copy of the draft letter for appointment setting out terms and conditions of Ms. Tirpude as an Independent Director is available for inspection by members on website of the Company.

Except Ms. Kalpana Tirpude to the extent of her shareholding in the Company (if any), none of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolutions set out at item no. 4 of the Notice.

The Board recommends the **Ordinary Resolution** set out at item No. 4 of the Notice for approval by the shareholders.

Item No. 5

Pursuant to the provisions of Section 148 of the Companies act, 2013 read with Companies (Audit and Auditors) Rules, 2014 the remuneration payable to the Cost Auditor of the Company for doing audit of the Cost records of the Company, shall be required to be approved by the members of the Company.

Accordingly, consent of the Members of the Company is sought for ratifying the remuneration payable to the Cost Auditor of the Company for the financial year ending on March 31, 2016.
